Topics include WebEOC basics, resource manager, & how to facilitate information sharing and warnings.</p> <p>1:00 pm to 3:00 pm Final Session This session is designed for local WebEOC administrators. Topics include WebEOC sustainment, adjustments to more efficiently manage public warning and information, and an after action review.</p>

Guidelines for Workshop Attendance

- Out of town attendees will participate in Day One activities only (Task Force meeting and Session #1)
- Local attendees can choose any one of the offered modules that fit work schedules.
- Attendees are encouraged to participate in the session that matches their EOC assignment, however, the sessions will have enough flexibility to meet student needs (for example, if a PIO can only attend the Wednesday Afternoon session for general staff, the instructor will ensure that PIO functions are adequately covered).

NOTE: Travel variations are by **exception only**. Please check with Ms. Cathy Ludwig (775) 337-5859 to avoid denial of travel reimbursement request.

Registration Information

Registration cut-off date is Thursday, May 2, 2013
